

FSILG Alumni 2009 Awards

Every year, the AILG joins with the FSILG Office to recognize some of the more than two hundred alumni and alumnae who are regularly involved in supporting any of the 38 FSILGs at MIT as well as the AILG itself. The **Outstanding Alumni Awards** are a way of saying thank you to this dedicated group, by recognizing a few of their exemplary representatives. The award recipients represent the diversity of our community: they come from many different generations and living groups; most are alumni and alumnae of MIT, but some are not. This year a very special category was added – the Lifetime Achievement category - to recognize a literal lifetime of volunteer service to the MIT FSILG system. These thirteen received the **Outstanding Alumnus of the Year** award this year at the FSILG Awards Reception on May 11, 2009.
